THE GOVERNORSHIP.

What a Friend of General Lee Has to Bay.

Every now and then there are indications in the papers throughout the State that point to General Fitzhugh Lee's candidacy for governor. The News yesterday quoted an article on the subject from the "Miscellany," of Buena Vista, in which it was advanced, as a probability, that General James A. Walker would be the Republican candidate for governor and that General Lee was the only Democrat who could successfully oppose him.

A close friend of the general's stated yesterday that he had every reason to

A close friend of the general's stated yesterday that he had every reason to know that the general had refused to entertain any suggestion looking to such nomination. He stated that it was, however, early for a discussion of the subject and that before entering upon it, it would be wise to let the smoke of the presidential campaign clear away.—Lyncuburg News. away. Four Bottles of Paine's Celery Compound Made Him Well!

There may be in the distant future some remedy as efficacious as Paine's celery compound.

There is none such to-day.

The sick and ailing who are stretching out their hands for help must take the best that the scientific medical knowledge of the world now affords.

The reasoning that has enabled Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, to discover the remarkable formula of Paine's celery compound is the result of the century's work in medicine.

It is by a new and more thoughtful grouping of diseases, from a careful study of their causes, that Prof. Paelps has been enabled to see the true rela-tionship of all diseases of the blood and

nerves.
Neuralgia, sleeplessness, melancholia,
hysteria, headache and dyspepsia at

half-fed and therefore deranged nervous

Neuralgia, sleeplessness, melanoholia, hysteria, headache and dyspepsia at once referred themselves to a tired, half-fed and therefore deranged nervous system.

The cure lay in attending to the nutrition of the whole system. This system of cure, simple and clear like most epoch-making ideas, was embodied in the greatest tissue former, nerve restorer and regulator yet known to science—Paine's celery compound, the one great remedy that makes people well.

Persons who complained of feeling "tired to death" and sought a com-

petent invigorator, as soon as their physicians ordered Paine's celery com-pound felt that their tired bodies were

pound felt that their tired bodies were actually taking a new start. Their strength rapidly returned. They were no more troubled with sleepless nights, and their days were no longer made wrotched by neuralgla and rheumatism.

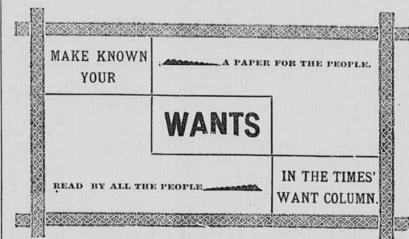

Constipation, that stres up in the body substances long since worse than useless to the body and a menace-to the health, is looked after. Any one troubled with this obstinate hindrance to health will find a positive and lasting cure in Paine's celery compound.

will find a positive and lasting cure in Paine's celery compound.

It takes a very short time to settle any doubts on the matter by giving Paine's ceiery compound a trial.

Mr. John Holland, whose portrait is given above, is a parlor car conductor, whose home is in Jersey City. He writes:

"I wish to give my testimony of the great benefit Paine's celery compound has done for me. A year ago I had typhoid fever, and later I had to have an operation in my side for an abscess over
